

Father's Day

Making a Photo Frame

Materials needed:

- n Scissors
- n Papers – Cartons
- n Markers, Crayons
- n Empty CD Box
- n Glue

Themes of your frames – it is up to your imagination what to draw in frames. For example, winter, spring, Summer, autumn or holidays.

Cut your photo to just smaller than the box. You will be fitting it into the back of the box with the hinged edge at the top, so about 4 inches wide and 4 $\frac{3}{4}$ inches high is perfect, but don't worry too much! Fix the photo against the plastic with a few small pieces of sticky-tape. Find a nice piece of cardboard, gift wrap or fun foam which will complement your design and cut this to fit snugly behind the photo and to the edges of the frame (4 $\frac{3}{4}$ inches wide, 5 $\frac{1}{4}$ inches high). Fix with glue or sticky-tape with the pattern, if any, facing into the box. When your frame is finished you will open the box out to stand it up, so this backing protects your photo.

Now all you need to do is draw a line of glue on the outside edges of the front of the CD box and start decorating! Use whatever you have to hand. You can build on the theme of the photo, the season, or the particular interests of the recipient.

n Inside the CD Box you may insert hand drawn picture or real picture of your father

Empty useless CD Box finds its useful place

Be creative and explorer!

There are other ways to make simple handicraft handmade gifts for our fathers. Explore the web or try to sit and think about things that are not longer used but combining some of them with each other may turn to be a treasure to our Dears like Dad and Mom!
